

STH is a compact clamp with high flexibility.

Advantages: Does not require milled slots in the die.

Choice: Extra heat proof seals (Viton) when mounting clamps on hot press tables.

Can also be delivered with extra long stroke in order to manage a wide variety of bottom plates (adapted to the customers needs).

Type	STH	a	b	c	d	e	clamping force ton 200/250 bar	Clamping force kN 200/250 bar
20		63	40	64,5-72,5	50	80	2ton/2,6ton	20/26
40		63	46	64,5-72,5	63	100	4ton/5ton	40/50
56		63	56	81,5-89,5	80	115	5,6ton/7ton	56/70

STH is always adapted to the requirements of the customers, to the size/ thickness that are to be clamped.

If an article is to be used at a existing or recently manufactured slot always use the enclosed dimension print (page 4) when placing an order.
